

Captive Rubber Mountings, Hangers And Heat Resistant Pads.

Type CRM2, CRM3 & HRP

A universal captive rubber mounting for supporting, hanging, anchoring and guiding pipework, particularly exhaust systems on board ship.

Designed specifically for use in high ambient temperature conditions for the control of vibration throughout the audible frequency range.

Design Features

- Tested at 40°C ambient with eyebolt at 400°C (300 mm drop rod and turnbuckle fitted) resulted in only 2°C temperature rise at inner rubber surface.
- Rubber insert is moulded in five variants 35, 45, 55, 65 and 70 IRHD (International Rubber Hardness).
- Rubber insert provides excellent high frequency attenuation performance.
- Unit remains captive and fail-safe whether used as a supporting mount or hanger.
- CRM2 has an M12 upper fixing and the CRM3 has an M20 upper fixing.
- Both CRM's can be bolted to the structure with 2 x M12 bolts or supplied fitted with a sole plate to permit fixing by welding.
- Optional heat insulation pad, please see page four.
- The CRM2 hanger is supplied complete with turnbuckle & eyebolt as standard. The CRM3 hanger is supplied complete with turnbuckle & jaw end as standard. Optional 1m long drop rod available.
- High transverse/axial stiffness ratio ideal for use as a 'flexible anchor'.
- Capable of 15° angular misalignment.

Typical Applications

- Marine Exhaust Systems.
- Industrial Exhaust Systems.
- Ductwork and Attenuators.
- High Speed Rotating Machinery.
- Shock Mount for Control Cabinets, Instrument Racks etc.

TYPE CRM MOUNTING & HANGER SIZE 2

CRM2 MOUNTING

CRM2 HANGER

PART No.		CONNECTION FIXING SIZE (mm)	RATED LOAD (kg)	DEFLECTION AT RATED LOAD (mm)	WEIGHT MAX (kg)	
MOUNTING	HANGER				MOUNTING	HANGER
CRM2.35	CRM2.35.H	M12	140	6	1.2	1.5
CRM2.45	CRM2.45.H	M12	225			

LOAD/DEFLECTION CHARACTERISTICS FOR CRM CAPTIVE RUBBER MOUNTING & HANGER

Application Notes:

- The CRM2 hanger is supplied complete with turnbuckle & eyebolt as standard. Optional 1m long drop rod available.
- We recommend that all fixing bolts used are high tensile Grade 8.8 or higher.
- Optional 15mm thick soleplate available, please specify **PT No. 4149** when ordering.
- For replacement internal components, please request a quotation for **CRM2.**.02**, (** denotes shore hardness required).
- For a shorter length version of our CRM2 Hanger, please ask for details of our **CRM2.**.HJE**.
- Ø50 washer **MUST** be used with CRM2 mounting when combined with heat resistant pad.

For full instructions please refer to our datasheets DS081

CRM3 MOUNTING

TYPE CRM MOUNTING & HANGER SIZE 3

PART No.		CONNECTION FIXING SIZE (mm)	RATED LOAD (kg)	DEFLECTION AT RATED LOAD (mm)	WEIGHT MAX (kg)	
MOUNTING	HANGER				MOUNTING	HANGER
CRM3.35	CRM3.35.H	M20	140	6	1.2	3.0
CRM3.45	CRM3.45.H	M20	225			
CRM3.55	CRM3.55.H	M20	325			
CRM3.65	CRM3.65.H	M20	425			
CRM3.70	CRM3.70.H	M20	525			

LOAD/DEFLECTION CHARACTERISTICS FOR CRM CAPTIVE RUBBER MOUNTING & HANGER

CRM3 HANGER

Application Notes:

- CRM3 has an M20 upper fixing.
- The CRM3 hanger is supplied complete with turnbuckle & jaw end as standard. Optional 1m long drop rod available.
- We recommend that all fixing bolts used are high tensile Grade 8.8 or higher.
- Optional 15mm thick soleplate available, please specify **PT No. 4149** when ordering.
- For replacement internal components, please request a quotation for **CRM3.**.02**, ** denotes shore hardness required.
- Ø57 washer **MUST** be used with CRM3 mounting when combined with heat resistant pad.

For full instructions please refer to our datasheets **DS081**

For more detailed information and technical assistance please contact our **Technical Department**.

HEAT RESISTANT PADS

PART No.	DIMENSIONS (mm)			
	'A'	'B'	'C' +2.0/-0.0	'D'
HRP.100.46.13	100	100	13	46
HRP.100.46.18			18	
HRP.100.46.21			21	
HRP.150.46.13	150	150	13	46
HRP.150.46.18			18	
HRP.150.46.21			21	
HRP.170.46.21	170	170	21	46
HRP.170.52.26			26	52
HRP.200.46.21	200	200	21	46
HRP.200.52.26			26	52

Application Notes:

- Each HRP kit is supplied with 2 no. Mild Steel or Zintec plates and 2 no. 20 mm thick heat resistant pads.
- Heat Resistant pad material is a rigid insulation board with a low thermal conductivity. They are specifically formulated without asbestos and mineral fibres.
- Heat Resistant pads have low shrinkage and high strength and therefore provide effective and stable insulation solutions for industrial and marine applications.
- Heat Resistant pad material combines high mechanical strength, good thermal and electric insulation at high temperatures.
